

SPREAD THE WORD ABOUT RESPONSIBLE PARKING

around wheelchair accessible vehicle spaces!

1 of 6
accessible parking spaces
must be van-accessible.

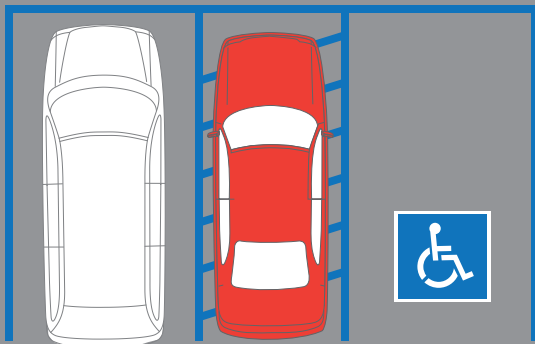

FACTS*

74% of people
have seen a handicap
accessible parking space
improperly used.

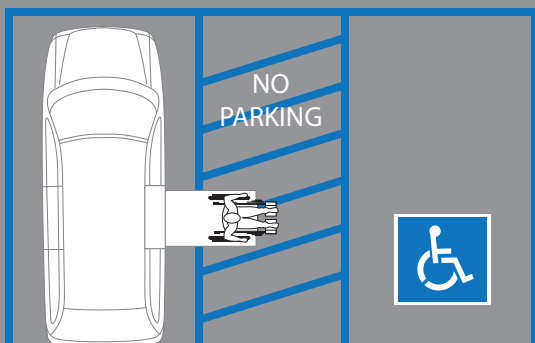

42% of people
do not know the stripes
represent space to deploy
a wheelchair ramp.

75% of able-bodied
people said if a car parked
too close to them, they
would use another door
or window to climb in.
Chair users do not have
that option.

* Statistics from 2018 Save My Spot Survey

Even if you have a handicap parking placard, please don't park in the striped spaces! This space allows room to deploy a ramp. If you park here, the wheelchair user is blocked from entering his or her vehicle!

The striped area provides an extra car-width of space to allow someone in a wheelchair accessible vehicle room to deploy a ramp and safely enter or exit his or her vehicle.
